MESSAGE FROM HON. CHAIRMAN

How to keep yourself healthy and fit during this summer season.

During summer months, we tend to lose a lot of water through perspiration which often results in dehydration. Burning of skin, dermatitis and heat strokes are some of the other common summer ailments. It is important that we take extra care of ourselves and our families during these months in order to avoid falling sick.

- **Sleep:** Lack of enough sleep is associated with increased hunger, higher blood sugars, poor concentration, frequent illness and impaired problem-solving. Make sure to give yourself at least 7 hours of sleep and that will help you stay healthy this summer. Make sure to get quality sleep at night. Taking a warm shower at bedtime does help.
- **Stay hydrated:** Water is the perfect way to stay hydrated and keep appetite in check. Add a splash of flavor with fruit juice or fresh cucumbers or lemon slices. Be creative.
- **Add Fiber:** Vegetables, fruits, nuts and grains are rich in fiber. Fiber helps you stay full, so you are less likely to eat mindlessly. Strive to eat at least 25 g of fiber a day.
- **Limit added sugars:** Try and eat less than six teaspoons of added sugar (this does not include natural sugars found in fruit and milk). This goal may not be realistic every day but aim for success 80 per cent of the time. Save your six teaspoons for a special dessert. When looking at labels, it is helpful to know that one teaspoon equals four grams of added sugar.
- **Keep an eye on alcohol:** Drinking too much alcohol can lead to unintended outcomes. Studies show that we make poorer food choices if we have alcohol in our system. A serving of alcohol contains about 100 calories and mixed drinks have even more. The goal is to limit alcohol to one drink a day for women, two drinks a day for men.
- **Stay active:** The stay-at-home orders might have put your exercise plans to the test. Make an exercise goal and stick to it.

- **Enjoy the weather:** Studies show that when people venture into outdoor settings, heart rate and blood pressure improve. Take a moment to appreciate being outdoors.
- **Gratitude:** Find a moment each day to reflect on a few things that brought you joy or good feelings. Being grateful and positive can help you thrive in a healthy life.

Creating a healthy environment around food, exercise and rest will ensure success with overall health. One of the most important things to remember: only you are in charge of respecting your body and providing it with what it needs.

BOOK NAME: INDIA AND WORLD WAR II

AUTHOR NAME: KAUSHIK ROY

PUBLICATIONS: OXFORD

"India and World War II": War, Armed Forces, and Society, 1939-45" by Kaushik Roy offers a comprehensive analysis of India's involvement in the Second World War, delving into the intricate relationships between the Indian armed forces, society, and the colonial administration.

Roy moves beyond a mere chronological recounting of military events, instead examining how various Indian communities engaged with the armed forces, the factors influencing their loyalty to the British Raj, and their contributions across diverse theaters—from Burma to Africa and Italy.

The book is structured into seven chapters, beginning with an exploration of India's pre-war military landscape and concluding with the post-war transformations. Roy highlights the profound and lasting changes within Indian society and the armed forces during this period, emphasizing the war's role as a catalyst for social and institutional evolution.

Scholars have praised the book for its depth and scholarly rigor. For instance, a review in the Journal of Defense Studies commends Roy's assertion that the period between 1939 and 1945 brought about extraordinary and irreversible changes in India, reshaping its social and military structures.

Overall, "India and World War II" is lauded as an essential read for those interested in understanding the complexities of India's military history and its societal impacts during the Second World War.

PRINCIPLE OF MAHATMA GANDHI

The principal implication of *ahimsa* is that the *ahimsa* in us ought to soften and not to stiffen our opponents' attitude to us; it ought to melt him; it ought to strike a responsive chord in his heart.
